

# FILTER SERIES

## 1 Micron Sediment Filter

WH20-1SED

- ↳ 1 Micron Polypropylene Filter
- ↳ High quality sediment removal & dirt holding capacity
- ↳ Reduces suspended fine sediment particles, sand, dirt, rust & organic materials
- ↳ Designed for high flow & low pressure drop

## GAC & KDF 55 Filter

WH20-GACKDF55

- ↳ Combines Granular Activated Carbon (GAC) & KDF 55 Heavy Metal reduction technology to remove volatile organic compounds, chlorine, THMs, pesticides, herbicides, & water-soluble heavy metals
- ↳ Prevents the growth of bacteria & algae with its bacteriostatic properties

## 5 Micron Sediment Filter

WH20-5SED

- ↳ 5 Micron Polypropylene Filter
- ↳ High quality sediment removal & dirt holding capacity
- ↳ Reduces suspended fine sediment particles, sand, dirt, rust & organic materials
- ↳ Designed for high flow & low pressure drop

## High Capacity Water Softening Resin Filter

WH20-RES+

- ↳ Exchanges hardness ions, such as calcium & magnesium, with sodium ions, resulting in water that is gentler on the skin & hair
- ↳ Dissolved minerals bind to the resin while the water flows through the exchange bed
- ↳ Softer water helps to protect your appliances, tapware, & shower screen by reducing scale build-up

## Granular Activated Carbon Filter

WH20-GAC

- ↳ Made with premium coconut shell based Granular Activated Carbon
- ↳ Removes dissolved organics & chemicals such as chlorine & its by-products
- ↳ Enhances the taste, colour & odour of your water

## Granular Activated Carbon + Polyphosphate Filter

WH20-PHOS

- ↳ 100% high grade Coconut Shell Activated Carbon
- ↳ Delivers outstanding limescale reduction with hardness levels up to 450ppm
- ↳ Protect and prolong the lifespan of appliances from scale build-up and corrosion
- ↳ Highly effective taste, odour, chlorine, VOCs and chemical removal

## CTO Carbon Block Filter

WH20-CTO

- ↳ 100% high grade bonded Coconut Shell Activated Carbon
- ↳ 5 micron pore size Highly effective taste, odour, chlorine and chemical removal
- ↳ No release of carbon fines post installation flushing
- ↳ Great general purpose drinking water filtration filter

## Carbon PFAS Reduction Filter

WH20-PFAS

- ↳ Specialised carbon block PFAS reduction filter reduces PFAS & other contaminants, enhancing water taste & quality
- ↳ Absorbs volatile organic compounds, unpleasant tastes, & odours
